

# WESROC®

## Bulk Storage Tank Monitoring

### Fuel Oil, Diesel, Refined Fuel, Gas & Water Bulk Tank Remote Monitoring

- **Storage Tanks with Visual Dials Using Magnetic Float Gauges**

- Standard to 96" Depth
- Special Order to 120" Depth

- **Storage Tanks without Magnetic Float Gauges**

- Maximum Depth Dependent on Product Type (Fuel Oil, Propane, Diesel, Gas, etc)
- Maximum Depth 164 Feet with 0.1 Inch Accuracy
- 4 to 20 Milliamp Conversion on Tanks Taller than 96" or 120"
- Technology Options:
  - Magnetic Float Gauges
  - Guided Wave Radar
  - Ultrasonic
  - High Frequency Radar

- **Additional Benefits:**

- Audit for Fill Amount
- Date & Time Fill History
- Know When Tank Can Take a Transport Delivery
- Eliminate Personnel Visits to Tanks
- Monitor Single or Multiple Tanks

- **Other Alarms:** Power Outage, Pressure Readings, High & Low Pressure Alarms, Product Temperature Reading, Ambient Air Temperature, Special Alarms, Percentage Change in Tank Level and others

- **All Technologies Compatible with Your WESROC Software & Reporting**

- Flexible Reporting Technologies
  - Telephone Line
  - Satellite
  - Cellular
  - Visual Display
